UI-UX designer, reactjs developer and team leader were my
most important positions

KEY SKILLS

Reactjs
Javascript
Typescript
Axios
SASS
Tailwind
UI-UX
HTML/CSS
Bootstrap
git
Problem solving
Team work

WHY ME

Using my aesthetic talent, I was able to create beautiful designs and turn them into real sites with my own development skills. Soft skills are my strengths and I can work in teams and even lead them.

Responsive web design
Creative Problem Solving
User Interface Design
Python
XML
ECMAScript

VISION

I'm interested in learning nodejs and becoming a full stack developer. Then learn React Native for mobile app and invest in my own management and leadership skills during this time
